Lake Mohonk Conference Develops New Ideas
As To Many Important Questions.

IS INTERNATIONAL IN ITS SCOPE

Unique Creel, Mexican Ambassador, Has New And Unique
Ideas--Other Prominent Men Spoke Before
The Gathering Today.

[SPECIAL TO THE GAZETTE.]

Lake Mohonk, N. Y., May 24.—A galaxy of notables addressed the international arbitration conference here this morning, the session being by far the most interesting of the entire program. Foremost among the speakers were Senator Don Enrique C. Creel, the Mexican ambassador to the United States; Senator Don Ignacio Calderon, the minister from Bolivia; and Hon. Francis B. Loomis, former assistant secretary of state.

Ambassador Creel spoke, in part, as follows:

"War still subsists as a relic of past ages. The organ may have suffered a modification, but the function still lies latent, a terrible menace. The peoples who came before me needed war, as they did not know other means of attaining justice, since the geography of the world has not been determined, and war was the only means to satisfy the rights of conquest and their ambitions for power and wealth.

"This does not apply to the present times. As opposed to the old civilizations, which were essentially artistic, modern civilization is industrial, rich, full of necessities, based principally on the extent of scientific knowledge and habits of labor, order and economy.

"Therefore, war brings with it stagnation of capital, destroys human life—valuable as any other labor producing factor—suspends circulation, decreases consumption, is in our modern life illogical, and everything tends to its disappearance. In the mean while the tendency is to reduce the effects of disputes, to minimize the dangers of armed conflicts and to settle by means of arbitration, the large majority of the 'difficulties' that may arise between the nations of the world.

"As for Mexico, I have to reiterate the statement that she has always upheld the principle of international arbitration. We do not believe, in Mexico, that the time is ripe for un-

restricted arbitration as a means for the settlement of disputes, but we believe that certain limitations should be established in such cases as those involving territorial integrity and national honor. Of course, it must be understood that our aim is to arrive at the specification, in unmistakable terms of those cases affecting national honor, by avoiding ambiguous, general and metaphorical phrases such as matters of vital importance, subjects involving questions of special nature, and other similar expressions which in the majority of cases—as is well known—are nothing but a mask behind which bad faith and a quarrelsome spirit lurk.

"Later on, when the number of adjudged cases, the methods established and the results accomplished a perfect knowledge of the system is obtained, it may seem prudent then to continue the work until the high and noble ideal of justice has been attained.

"In my country also—and in saying this I am confident that I am rightly interpreting the general opinion—the desire exists to see the doctrine of the distinguished secretary of state, the Honorable Elihu Root, prevail, that is, that the armies and navies of the world must not be used to exact, by force, the payment of debts contracted by the claimant powers, leaving such extreme methods for cases of denial of justice and evident notorious bad faith. Mexican statesmen have struggled over fifty years against such methods fraught with arbitrariness. The protests entered by different secretaries of foreign relations of my country against Napoleon's intervention and the French claims of the time of Louis Philippe are still fresh in the memory of all.

"To compel, by force, the payment of a debt, when the person or the state who loaned the amount in question were fully cognizant of the economic and political conditions of the borrower, and his facilities for dis-

Motor Racing Association Arranges
Many Contests.

[SPECIAL TO THE GAZETTE.]

Philadelphia, Pa., May 24.—The United States Motor Racing Association, recently incorporated in New York, has completed all arrangements for its initial race meeting, to be held today and tomorrow at the Point Breeze track. The feature of the program is to be a twenty-four hour endurance race for fully equipped touring cars, and touring runabouts. If the plans of the new association are fully carried out the year 1907 is bound to be the banner year for automobile racing in the United States. According to the schedule the race meet here is to be followed by similar tournaments in Baltimore, Washington, Providence, Springfield and Pittsburgh and then an invasion of the west will be made. Columbus, Cincinnati, Louisville, Indianapolis, Cleveland, Detroit, Chicago, St. Louis, Kansas City, Milwaukee, St. Paul, Minneapolis and Denver will be included in the circuit in addition to several smaller cities that have well organized automobile clubs.

STANDARD OIL ON THE GRILL AGAIN

"Trust's" Exceptions to New Jersey
Code Up For Argument at
Minneapolis.

[SPECIAL TO THE GAZETTE.]

Minneapolis, Minn., May 24.—A formidable array of legal talent appeared in the United States circuit court today to take part in the arguments on the exceptions to the bill of complaint filed by the United States government against the Standard Oil Company of New Jersey. This is the case brought by the federal government against the Standard Oil company and its allied corporations in the circuit court at St. Louis under the Sherman anti-trust law to enjoin "alleged conspiracy to restrain trade." The defendants answered the bill and filed the exceptions to portions of it and it was on these exceptions that he case was called for argument before Judge Sanborn today.

EMINENT EDUCATORS CONFER IN LONDON

Relationship of Dominion and England
to be Strengthened by Edu-
cational Bonds.

[SPECIAL TO THE GAZETTE.]

London, May 24.—A notable educational conference under the auspices of the Federal Council of the United Empire League, was opened in London today. Canada is especially well represented at the meeting, delegates being present from Quebec, Alberta, Nova Scotia, New Brunswick and other provinces. An interesting program has been arranged for the conference, the sessions of which will last a week or ten days. The chief aim is to strengthen the relationship existing between Great Britain and her colonies, and particularly to bring about uniform methods in the educational work throughout the British empire.

CANADIAN TRIBUTE TO QUEEN VICTORIA

Empire Day Observed Throughout Do-
minion—Boer War Monument
Dedicated at Montreal.

[SPECIAL TO THE GAZETTE.]

Montreal, May 24.—Montreal today observed Empire Day by unveiling in Dominion Square a magnificent statue in commemoration of the famous Strathcona Horse and the part they played in the late South African war. The unveiling ceremonies were made the occasion for a great patriotic and military display. The statue is of large proportions and represents a trooper dismounted, holding to a rearing horse. The statue is the work of George William Hill, a Canadian sculptor. The statue is of bronze, stands 16 feet high, and cost \$22,000. It was cast in Paris and is said to be the largest equestrian statue that was ever shipped across the Atlantic. It has been erected on a magnificent granite base, on the sides of which are panels representing battle scenes at Paardeberg and Komati River, in both of which engagements the Canadian troops took prominent parts.

"Victoria the Good."

Ottawa, Ont., May 24.—The memory of Victoria the Good was kept green throughout Canada today by means of the national holiday that is the only rival of Dominion Day. The holiday was made the occasion of many sporting gatherings and of military and patriotic exercises in all the large cities and towns.

Throughout Northwest.

Winnipeg, Man., May 24.—Victoria Day was celebrated throughout Manitoba and the Northwest today, great crowds attending the centers of attraction. The premier sporting event in this city was a monster athletic meet held under the auspices of the Y. M. C. A. Athletic club. The racing season was inaugurated at Calgary and at Mitchell.

VARDAMAN ASSISTS GOVERNOR JOHNSON

Fiery Gubernator of Mississippi
Prominent Figure at Dedication
of Minnesota Monument.

[SPECIAL TO THE GAZETTE.]

Vicksburg, Miss., May 24.—In the presence of a large crowd that included scores of veterans of the civil war in uniforms of blue and gray, Governor Johnson of Minnesota and Vardaman of Mississippi today dedicated the monument erected by Minnesota in the Vicksburg Battle Park in memory of the soldiers of Minnesota who participated in the siege and capture of Vicksburg by General Grant in 1863. The business session of Vicksburg and the main thoroughfare leading to the park were profusely decorated in the national colors. The dedicatory ceremonies were of a simple but impressive character. Speeches were made by Governors Johnson and Vardaman, Chief Clerk Scheffeld of the War Department, General L. F. Hubbard of the Minnesota monument commission, and others. The Minnesota memorial is a \$25,000 obelisk, made of rough faced granite, towering ninety feet high and bearing suitable inscriptions about its base. In addition to the central monument there were placed a number of markers showing the ground attained by the Third, Fourth and Fifth Minnesota volunteer infantry and the First Minnesota artillery in the memorable siege.

Night Watchman Thomas Kelly was severely beaten, and several citizens were injured. Three yeggmen were arrested, two of whom were wounded by the police.

ASSEMBLY PASSES A CHILD LABOR LAW THIS MORNING

Limits Hour Of Work To Nine Hours--Makes
Many Restrictions As To Permits.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., May 24.—By a vote of 60 to 5, the assembly advanced the child labor bill, limiting the hours for children to nine hours a day, forbidding night work, and abolishing the system of judges issuing permits for children under age to work. Amendments were adopted excluding the errand boys, newsboys, and employees of canning and pickling factories from operation of the law, and prohibiting all children from working who are not able to read and write simple sentences.

An amendment to confine the operation's bill to Milwaukee was proposed

and voted down. After the arguments in which it was represented that the bill would operate to destroy the industry and thrift and would increase idleness and do no good at large, for the child labor and factory evil, it was argued, is only confined to large cities. Assemblyman Norcross made the leading speech against the bill.

The senate worked through the longest calendar of the session, concurring in thirty assembly measures, most of them unimportant. The fish and game and dam privilege measures were advanced. Among the bills advanced was one to keep the saloons three-fourths of a mile from the university.

[BY ASSOCIATED PRESS.]

Jefferson City, Mo., May 24.—Judge Anthony was appointed by the supreme court of Missouri to take testimony in the suit instituted against the Standard Waters-Pierce and Republic oil companies, charging conspiracy, today and reported to the court that the companies had entered into an agreement to control prices of oil. He recommends their charters be revoked and they be ousted from the state.

AMERICAN LIBRARY CONVENTION OPENS

[SPECIAL TO THE GAZETTE.]

Asheville, N. C., May 24.—The American Library Association began its twenty-ninth annual meeting in Asheville this morning with a large and representative attendance. The initial session was given over largely to reports from officers and committees. President C. W. Andrews of Chicago delivered his annual address and Andrew Knapp, reference librarian of Yale University, read a paper on "The Use of Bibliography." The National Association of State Librarians held an interesting session this afternoon with James L. Gillis, state librarian of California, presiding. The college and reference section of the association, of which Theodore W. Koch, librarian of the University of Michigan, is chairman, holds a meeting this evening.

[BY ASSOCIATED PRESS.]

Binghamton, N. Y., May 24.—James O'Connell, the international president of the International Association of Machinists, this afternoon called out the entire force of union machinists on the Erie railroad, numbering about three thousand men. The strike was caused by dissatisfaction of the men over the piece-work rates.

OPEN SWITCH THREW INTERURBAN CAR OFF

Derailment South of Roscoe Last
Night Resulted in Injury of Four
Persons.

Running through an open switch a southbound interurban car on the R. B. & J. line ploughed off the end of a siding three miles south of Roscoe at half past eleven o'clock last night and the derailment resulted in the injury of four persons. Motorman F. H. Wiegert sustained a cut under one ear and it was necessary to take three stitches to close the wound; Conductor William McLaren suffered a scalp wound and bruises about the head and body; W. H. Gough of Rockford was thrown forward so that he struck on his head against the seat in front and in a similar manner R. W. Bates, also of the Forest City, received a deep cut up and down his forehead, another near the temple and a third on one cheek. Ten other passengers, all of whom escaped unscathed, were from Capron and Shirland and among them was William Randall of Shirland, who is well known in Janesville.

[BY ASSOCIATED PRESS.]

Canton, O., May 24.—Dr. Portman, after a call on Mrs. McKinley this morning, issued the following bulletin: "I have found Mrs. McKinley much better in every way this morn-

Mrs. William McKinley.

ing. Her heart action and circulation are better. She was strong enough to ask for a drink of water this morning, but immediately lapsed into unconsciousness." Dr. Portman added that the result is in doubt, as the relapse may come at any time. Her constitution is in such a condition, she can hardly stand a severe attack.

After a consultation Doctor Rixey gave out the following statement: "Mrs. McKinley's condition is more favorable. We hope and believe she will improve. Her condition, however, is serious. The principal difficulty is to give her sufficient nourishment. There is a decided improvement as to the paralysis, which is limited to one arm."

JUDGE SALE HAS DECIDED MATTER

DAUGHTER OF JENNIE TWEETA INHERITS HER PROPERTY.

CASE WAS COMPLICATED

Matter Has Been in Court for Almost Two Years, Since Death of Woman.

By the decision of Judge Sale of the county court, in the estate of the late Jennie Tweeta, the daughter of the woman, Annie Marie Karlsdatter Borkum of Kongsberg, Norway, is the heir to her property, which is valued at \$2,000. The question involved was one of international importance, and has caused considerable interchange of letters between this country and Norway. Judge Sale's decision will have an important bearing upon cases in the future dealing with similar matters.

Jennie Tweeta, deceased, was for many years employed in different families in Janesville as a domestic. A little over two years ago she showed signs of insanity and while being examined by physicians as to her mental condition severely bit a prominent practitioner on the hand. She was sent to the insane hospital at Madison, where she died a short time afterwards, nearly two years ago. Considerable excitement was caused at the time of her confinement for insanity over the story it had been caused by the bite of a pet dog of the household in which she worked.

Her estate, consisting of her savings of years, was sought by a brother, Edward Rolfsen of Edgerton, and sister, Mrs. Sophie Jacobson of the same city, for their parents, Wraal Tweeta and his wife, Annie Tweeta of Kongsberg, Norway. This is according to Norwegian law, where the parents inherited the estate of their children who die with issue. Meantime a daughter, whose parentage is clouded, named Annie Marie Karlsdatter Borkum, made claim through the Norwegian Consul at Madison, Halle Steensland, and an attorney was employed to look after interests.

Question of Parentage. The question of parentage of the girl was raised and was subject of international correspondence. Mr. Steensland made a thorough investigation of the matter and was convinced that the girl was the issue of the woman, Jennie Tweeta. The method of keeping birth records in Norway being so lax, the names being different in the same family, the matter was most perplexing to straighten out. Tweeta, the name of the dead woman, was the name of the farm upon which her parents lived, which is often taken by residents of Norway. The addition of "son" and "daughter" to the first name of the father also tends to complicate a thorough understanding of the relationship.

The matter was closed up yesterday, Judge Sale deciding in favor of the daughter and the estate will be forwarded to her by the Norwegian consul at Madison, Mr. Steensland.

PRIMROSE PATH LED TO LOCK-UP BERTHS

Fourteen Prisoners Accommodated Last Evening—How Klemens Klink Resisted Arrest.

Mental depression resulting from the prolonged rainy season drove many to the excessive use of intoxicating liquors and the city lock-up harbored no less than fourteen last evening. Among them were "Tinker" Smith, Edward Flavin, John Smith, Jack Connors, and John Klein, a deaf and dumb man. Klemens Klink, C. H. Jones, and Morris Donahue comprised the delegation taken into municipal court.

Klink came in from the Mrs. (Taylor) Clark farm on the Milton avenue road yesterday with 28 crows' heads and about \$3 in money. His original home was in old Germany, but he has been in this country about 2½ years. After consuming a number of beers Mr. Klink forgot all about the crows' ransom and in great exuberance last evening started to run his nag up and down the business thoroughfares. His long Officer William Mason was on his trail, but the pursuit proved to be a fast and furious one. Once the patrolman got within reaching distance Mr. Klink boisterously swung on him with the loose ends of the reins, but the officer nabbed him in the same. The offender told the court this morning that he was intoxicated, but insisted that he had no whip and did not abuse the horse. A savings account in one of the local banks enabled him to pay a fine and costs amounting to \$4.10 in lieu of going to jail. The rig had been left at the Farmers' Rest.

Donahue is a stranger in the city, employed by Cullen Bros. in the building of the new Bassett & Behlin plant. He boards at the Riverside hotel and when there was a melee in the street in front of that institution about twelve o'clock last evening, he deemed it his duty to interfere and bring the riot to an end. In the heat of the conflict somebody bit off a generous slice from the top of Mr. Donahue's left ear. Dr. George Fifield dressed his injuries and afterwards he was escorted to the city hall where he spent the night. Donahue said that his arrest was due to his having complained to the police of the barbarous treatment accorded him while acting in the role of a peace-maker and denied that he had taken more than two drinks. His case was adjourned and he was released until Monday morning. In the meantime a thorough investigation of this story will be made.

Jones said he came here from Harvard on a stock train to transact important business. He was unable to explain what reckless audacity led him to disregard an officer's command to go to bed at once and stay there. At any rate, he ultimately became very drunk, for which offense he cheerfully paid a fine and costs amounting to \$3.10.

TRIBE OF BEN HUR IN A CELEBRATION

Of the Capture of State Banner for Highest Membership, Enjoyed Themselves Last Evening.

Members of the Janesville lodge of the Tribe of Ben Hur assembled at East Side Odd Fellows' hall last evening to celebrate the capture by the local organization of the prize state banner awarded for securing the largest lodge membership in the state. The Deputy Chief made the presentation and J. J. Cunningham in a graceful speech of acceptance paid tribute to Dr. George H. Webster, the present chief of the Bower City branch, and Mrs. Cornelius McDonald, the past chief, whose efforts were largely responsible for the fine showing. There are now 200 names on the roster and the greater portion of these members participated in the festivities last evening, which included a banquet, a musical program, and dancing. When arrangements were in progress for the latter diversion it was found that there was lacking one lady to "even up matters" and Hiram D. Murdoch kindly volunteered to cross over from the male delegation. Thus it transpired that he won the ladies' first prize. Mrs. I. T. Mathews was awarded the ladies' consolation; Jesse Earle, the gentlemen's first; and David Brown, the gentlemen's consolation.

DISTRICT GROWING VERY RAPIDLY NOW

Edwin Banfield Tells of the Benton and Cuba City Lead and Zinc Fields.

"Benton and Cuba City are growing in large and prosperous mining communities," said Edwin Banfield this morning. "In fact they are growing in population much more rapidly than the influx can be properly cared for. The boom days have apparently left and good hard working mining has begun. By the way, the Baxter is the best mine out there. It is by far the richest and if it was run to its limit would be one of the richest ore producers in the country. We are drilling just now for Calumet, and other large northern companies, and on one piece of land that was rejected by a Milwaukee company on advice of their expert, have made several big finds, one of them being a solid ledge of zinc. The idea fortunes can be made in a day is erroneous. Good substantial mining will be followed from now on and the results will be marvelous." Mr. Banfield is home on a short visit and expects to return shortly to the district.

The Infant Terrible.

A mother had just sought to punish her youthful son—and the son, to escape, had crawled under a bed—when a woman friend called at the apartment. "What a lovely place you have here!" the caller remarked. "So pretty—and so bright and clean. You must give more personal attention to things than I do." At this moment the small boy crawled out, scenting safety. "Say, mamma, was his greeting, 'I don't get under any more beds in this house. Look at me. I guess when you sweep you never sweep under there. The dirt's an inch thick.' The caller looked off into space and the mother exclaimed, enthusiastically: "Oh, let me show you my new hat, my dear!"

Not Such a Fool After All.

A well-known surgeon was somewhat quick-tempered if he found a student exceptionally dull, and on one occasion when he had been more than usually irritated by a student's density asked him how many times he thought a fool could hear a name mentioned without remembering it. "I don't know," replied the student; "how many times could you yourself?"

Handsome glass vases may be kept free from the accumulation of dust at the bottom by inserting a wad of tissue paper the color of the vase when it is not in use. By taking this means of keeping them clean the brilliancy of the glass is retained.

ENTERTAINED FOR MRS. T. S. NOLAN

Mrs. Daniel F. Skelly, Hostess of Thirty Ladies at Neighborhood Farewell Party.

At a supper and six-handed euchre party Mrs. Daniel Skelly last evening entertained a company of thirty ladies at her home, 255 Fourth avenue. The affair was a neighborhood farewell to Mrs. T. S. Nolan, who will soon remove from the second ward. A delicious three-course luncheon was served and the evening devoted to cards. Mrs. Nolan carried off first honors and the lucky number prize fell to Mrs. Leslie D. Barker. Mr. and Mrs. Nolan and daughter Vera will move during the latter part of the month into the residence of Mrs. Minnie Jones on East street, where M. G. Jeffris and family now reside.

WHITEWATER GIRL WIFE NUMBER TWO?

Young Lady Who Wedded Deserter From Navy May Find She Was Second Choice.

It is alleged that Robert G. Egbert, who has just completed six months of a year's sentence at Portsmouth navy yard for deserting from the navy, is a bigamist and that his second wife was formerly Miss Florence Burton of Whitewater. It is said that Mrs. Egbert, now, who lives at Springfield, Mass., will press the charges of duplicity. Egbert was arrested by the federal authorities last fall when he was on his way to Savannah, Ga., with his second wife. After the arrest of her supposed husband Miss Burton came to Whitewater, where she has resided with her parents up to a few weeks ago, when she left without notifying friends of her destination.

MRS. CYNTHIA DUDLEY DIED LAST EVENING

Came Here With Her Parents from Vermont in 1836—Her Grandfather a Gunsmith in Revolutionary War.

Mrs. Cynthia W. Dudley, one of the oldest residents of the county, passed peacefully away at the home of her son, Dr. Edward W. Dudley, shortly before six o'clock last evening. She had been afflicted with heart trouble for some years past and in a fainting spell two weeks ago fell down and fractured a hip.

Deceased was born in Westerfield, Windsor county, Vermont, May 14, 1823. Her grandfather was a gunsmith for the American forces in the Revolutionary War; her father, Gideon Chapin, followed his predecessor at the forge; and one of her brothers, T. P. Chapin, established the first blacksmith shop on the Janesville and Madison road, not far from the present village of Brooklyn. Gideon Chapin and his family came to Rock county in 1836 and took up a government claim on the river banks, perhaps a mile north of the present city about the same time that E. W. Barker and E. Sprink settled in the same locality. A rich lime quarry was subsequently developed on the Chapin property and for many years preceding the advent of the railroad builders came thither from all directions for their supply of this material.

Mrs. Dudley was the last survivor of five children and her husband died twenty-seven years ago. With the exception of five or six years spent in Dane county, she was continuously a resident of Rock county and Janesville for 71 years. She leaves two sons, Dr. E. H. Dudley of this city and Frank Dudley of Chicago, six grandchildren, and four great-grandchildren. The funeral will be held from the home, 210 South Main street, at half-past two o'clock Saturday afternoon, Rev. R. C. Denison officiating.

Miss Fayette Noyes

Miss Fayette Noyes, passed away this morning at the home of her mother, Mrs. E. G. Noyes, in the town of Rock. The young lady was twenty-one years old and her demise was the result of tuberculosis. The remains will be taken to Chicago and interment be made there in Grace-land cemetery.

Stephen Starr Higby

Stephen Starr Higby died at 12:30 o'clock this noon at his residence, 2 Vista avenue. The deceased was born July 31, 1844, in West Lynden, Lewis county, N. Y., and had resided in Janesville since 1890. He was a veteran of the Civil war, having served through the strife with the Fifth New York heavy artillery. A wife and a brother who lives in Nebraska are left to mourn the demise. Notice of the funeral will be given later.

PERSONAL MENTION.

J. L. Mahony of Portage is in the city.

STILL ROOM FOR REFORM

EXPERT TALKS OF NEEDS OF BANKING SYSTEM.

United States Treasurer Outlines Changes He Believes Would Be to Best Interests of Country.

Kansas City, May 24.—Charles H. Treat, treasurer of the United States, addressed the Missouri Bankers' association, meeting here in annual convention Thursday morning, on "Some Comments on the Aldrich Law." Mr. Treat said the law was of much benefit, but that banking reforms still remain to be made. He believed our national bank system meets the needs of the country as a whole better than any other system in existence, and he favored a modification of it rather than an attempt to introduce any revolutionary scheme such as credit currency.

Mr. Treat continued: "There is much discussion regarding the national banking system on the part of pessimistic writers who extol to an extravagant degree the banking systems of foreign countries. I would go to remind them that there is no banking system in any foreign country that is not subjected to home criticism in that it does not altogether meet their business requirements. If such be the case, why should any attempt be made to engraft it upon our system?"

"As a matter of fact, I know of no system that in all respects, for the interests of the whole country as well as the banking community, more generally meets the requirements than our own national banks. I think it would be far more creditable and beneficial to the country if more thought were given to the manner in which the banking system could be modified and perfected, rather than to attempt any revolutionary scheme such as 'credit currency,' I believe our present system contains elements that can be developed to meet every reasonable exigency in our business life."

SYNOD OF LUTHERAN CHURCH.

Meeting Organizes for Session at Sunbury, Pa.

Sunbury, Pa., May 24.—The general synod of the Evangelical Lutheran church of America organized Thursday by the election of Rev. S. W. Owen of Hagerstown, Md., as president. Rev. Owen was chosen on the fifth ballot, after Rev. J. B. Remensnyder of New York city had withdrawn.

Rev. H. K. Fenner of Louisville, Ky., was elected secretary, and Rev. G. H. Knollenberg, Richmond, Ind., was chosen treasurer.

At the night session of the synod the report of the board of foreign missions was read. The report says that there are now nearly 43,000 persons under the influence of the church's missions in India.

The financial statement of the report shows receipts from all sources during the biennium of \$146,341, an increase of \$9,383 over the previous biennium. The cash balance stands at \$16,936, an increase of \$9,205.

Among the resolutions submitted to the synod by the board was one instructing the apportionment committee to fix the apportionment for foreign missions at 25 cents per communicant member for each year of the coming biennium.

Will Employ Two Examiners.

Washington, May 24.—The commissioner of the general land office has determined to expedite the opening of the Coeur d'Alene Indian reservation by directing that two examiners of surveys be employed upon the work of final inspection of the surveys reported as completed in the field this spring.

Famine Relief at End.

Washington, May 24.—The Red Cross has formally announced that it will no longer receive contributions of money or provisions for the relief of the Chinese famine sufferers, the famine having been broken by the ripening of the new crop.

CASE DRAGS ITS SLOW LENGTH ALONG

PROCEEDINGS OF TENTH DAY OF HAYWOOD TRIAL.

JUDGE IS MORE SEVERE

Will Accept Only Such Excuses to Escape Jury Service as Clearly Come Within the Statute—Tenth Talesmen Examined.

Boise, Idaho, May 24.—The net results of the tenth day of the Haywood trial were the partial weeding out of the talesmen of the second special venire entitled to statutory exemption and the partial qualification of one juror. The examination of the venire has not proceeded very far but it shows that the recreation of interest in the Steunenberg murder and the rediscussion of the facts established and disputed is, by natural process, disqualifying many citizens for jury service in the case, and indicates that the publicity given to examination of talesmen has widely increased popular knowledge as to the means of artistically avoiding jury service in the case.

The 60 men of the second special venire presented themselves when the judge ascended the bench at two o'clock Thursday afternoon and when it was announced that the court would hear excuses 23 of the 60 marched forward. Judge Wood said that he would accept only those excuses which clearly came within the statute and when he made good his announcement the band of petitioners melted very quickly. Five petitions were flatly denied, nine were temporarily denied, six were granted. The other three petitioners did not bother to present their excuses.

Seek to Fill Ninth Seat.

Then began the attempt to fill seat No. 9, made vacant by the release of Juror Orrle Cole on account of illness. The first five talesmen had opinions that would require evidence to change—one of them said his opinion would last regardless of the evidence—and they all went down on challenge from the state. Early in the examination Clarence Darrow, for the defense, asserted that James H. Hawley, for the state, was seeking to lead talesmen up to qualification by improper questioning. Judge Wood overruled his objection, but he continued to address the court. Mr. Hawley bristled and for a few moments there was a promise of a scrimmage. But the court checked the incipient row and the examination went on.

What amounts to roughly one-third of the new venire was exhausted and some men who watch the trial believe that this venire will not fill the one certain and nine or ten prospective vacancies in the jury. After a talesman has been qualified for Mr. Cole's place the state will use its seventh peremptory challenge which will be the thirteenth challenge out of the 20 allotted.

REPORT ON FOREIGN MISSIONS.

General Synod Reformed Presbyterian Church in Session.

Pittsburg, Pa., May 24.—The second day of the general synod of the Reformed Presbyterian church was presided over by the new moderator, Rev. Dr. Thomas McFall, of Nova Scotia. Several students were licensed to preach and the convention then took up the reports on the work of foreign and home missions.

The report on foreign missions of the church showed that eight new missionaries had been appointed during the year and that there was a balance of \$13,000 in the treasury for work at the Chinese and Syrian missions. The appropriation for next year for the foreign missions is placed at \$17,500. Special notice was called to the fact that the Turkish government had placed the missions of the church on the same footing with the French missions, although many missions had been closed heretofore. Many missions in the mountains of Turkey are expected to open as a result of the edict issued recently by Turkey. In the report of home missions announcement was made that a congregation would be established in Alberta, Canada. A feature of Thursday's session was the presence of Robert Alaka, a full-blooded Comanche Indian, who told of the work among the Indians in Oklahoma.

SHERMAN DECLINES POSITION.

Illinois Lieutenant Governor Refuses Roosevelt's Offer of Place.

Washington, May 24.—Lieut. Gov. Lawrence V. Sherman of Illinois Thursday declined to accept his appointment by President Roosevelt as a member of the Spanish treaty claim commission. The reason assigned by Senator Culbourn, who took Mr. Sherman's declination to the White House, was that Mr. Sherman did not feel like leaving his present position when the legislature of Illinois had not yet formally adjourned its session of this year. According to reports in other sources politics has something to do with the decision of Mr. Sherman.

Welcome Rain in Iowa.

Sioux City, Ia., May 24.—Rain in measurable quantities fell here Thursday for the first time this spring and was going throughout northwestern Iowa, the Dakotas at the same time reporting scattering showers.

MORE TALK AT A PEACE FEST

(Continued from Page 1.)

charging the obligation, is a complete misapplication of the general conception and principles of credit. In such cases, one of the principle points which is always born in mind, is the possibility that payment may not be made in due time, because of the insolvency of the debtor, hence the more or less high rates of interest and securities exacted.

"In a matter of such importance I give my cordial support to the sense of justice and right expounded by Calvo in his work on international law, and also agree with the Drago doctrine as expressed in the communication which he authorized as secretary of foreign relations of Argentina, on December 23, 1902.

"Any method by which countries may be led to the peaceful settlement of their international difficulties, is of the greatest and highest importance, not only for the preservation of peace but also to make international arbitration more solid and stable. It is, therefore, an all-important matter that treaties made between friendly nations should always, in provision of any disagreements, stipulate the obligation to refer to the Hague tribunal all cases after diplomatic exertions are exhausted. The views and the influence of modern statesmen in this connection are most gratifying, as in less than four years forty-four treaties of arbitration have been signed, many of which provide for the submission to the Hague tribunal of any differences that arise. May such example be followed by others, and its application become more universal.

"This current of public opinion, this great love of justice which grows daily in both hemispheres, lend support to the action of the President of the United States and his secretary of state, in asking that a group of civilized nations, decided to settle by peaceable means their differences, come together to ask justice before a permanent court formed by men who by their independence, honorability, learning and disinterestedness, offer ample security that their judgment shall be just, rigid and impartial.

"By these means the world will attain a superior organization, where day by day the necessities for armies and navies shall decrease, thus lessening the public charges; confidence shall be re-established among governments and nations; industry shall demand the aid of idle hands and of the energies which she now lacks, and lastly peace and good-will shall exert their noble influence in the development and happiness of the human family.

After reviewing the history and progress of the arbitration movement among the countries of South and Central America and asserting that the principle of international arbitration is a doctrine more generally practiced and accepted in South American countries than anywhere else, Senator Don Ignacio Calderon, minister of Bolivia to the United States, continued as follows:

"It is useless to speak of disarmament when first of all the rival nations have more confidence in their fighting strength than in the justice of their cause or the love of peace of their neighbors. To a certain extent the democratic doctrine of government by the people and for the people affords greater security against wars, provided the public sentiment is properly guided and the nation as a whole has a true love for fair play and honest dealing.

"When the Venezuelan ports were bombarded by the combined fleets of some of the great powers of Europe, the Argentine republic, through her minister of foreign affairs, called attention to the great injustice and menace to the sovereignty of the victim republic that such action implied.

"Senor Drago, in his famous note, among others, made the following statements: 'The acknowledgment of a debt and the liquidation of its amount must be made by the country without curtailment of its fundamental rights as a sovereign entity; but the compulsory demand at a given time, by means of force, would only be the destruction of the weak nations and the absorption of their government with all of their faculties by the strong nations of the world. The principles acknowledged in the American continent are different. The American nations said: The contracts entered into as between nations and individuals are obligations subject to the conscience of the sovereign and cannot be an object of compulsory claim. They do not confer any right of action outside of the will of their sovereign.'

"Referring to the Eleventh amendment to the constitution of the United States Senator Drago remarks: 'that it forbids a judicial action on questions of law or equity as between the citizen of one of the states against any of them or by the subjects of a foreign power.'

"The doctrine advocated in this famous document is thus summarized: 'In a word the principle which we would like to see established is that a public debt cannot warrant an armed intervention, much less the occupation of the territory of any of the American nations by a European power.'

"Thanks to the efforts of the Hon. Secretary of State, Mr. Root, the Drago doctrine will be submitted to the Hague conference, and it is to be hoped that the great powers, guided by more reasonable ideas, will agree to end one of the most disgraceful practices, and establish rules that will afford justice to all.

"The advancement of the Latin American republics is shown in the yearly increase of their foreign trade which now amounts to nearly a billion and a half dollars per year, and that with a population of only about fifty millions. The enormous resources of the vast territory of each of the ten republics of South America offer a remarkable field for the employment of all the energy and efforts of future generations. There is Bolivia, my country, with a territory equal to one fourth that of the United States, abounding in all kinds of minerals, with vast fields of rich pastures for a vast cattle industry, forests where millions of rubber trees can supply large quantities of this useful commodity, besides other equally important products. Every one of the republics of the south are ready to

welcome the life-giving current of immigration which has so greatly helped the rapid and extraordinary accumulation of wealth and happiness in this great commonwealth.

"Providence has destined the whole of America to be the home of freedom.

"Let us hope that guided by the true principles of democracy and following the natural development of their intercourse in no distant epoch the South American republics, confederated into a few powerful nations, will be the home of hundreds of millions of free men, working peacefully for their own welfare, conquering and dominating Nature's magnificent gifts, free from military thralldom and in the full possession of the rights with which God has endowed our immortal souls."

"The Pan-American Railroad—A Practical Peace Project" was the subject of an interesting address by Hon. Francis B. Loomis, former assistant secretary of state. After reciting the history of the movement for the Pan-American, or intercontinental railway, Mr. Loomis spoke as follows:

"I do not hesitate to say that no other single project, enterprise or undertaking can do so much to establish substantial, permanent conditions for peace, good will, good feeling throughout this hemisphere as the building and operation of an international railway from New York to the Argentine Republic.

"The essence of all that is worthy and good and noble in our civilization would be carried southward. The too frequent disorders in some of the smaller republics would cease because these communities would be brought into quick and close communication with the outer world. They would be in touch with better and more stable conditions. The government in those unrestful countries would be able to transport troops quickly from one part of the national domain to another, and uprisings would be swiftly suppressed.

"Maintenance of peace and good order in Mexico was enormously assisted by the building of railways. In our own country civilization followed the rails across the plains over the western mountain ranges to the Pacific ocean. The wild Indian, the desperado, and the unreluctantly offensive cowboy have in the past disappeared. Savagery and violence cannot stand before the regular movement of trains laden with the necessities and the comforts of life, with people who know their meanings and their use, with teachers and preachers and physicians to minister to the mind, the body and the spiritual welfare of mankind.

"These humanizing and civilizing influences that inevitably follow the pioneer railway cannot be resisted. This means that this great road through the heart of Central and South America would be the most prodigious agent for progress the world has ever known.

"Whenever civilization is at a low level the tendency and the effect of the opening and operation of the inter-continental railway would be to lift conditions of life to the higher and better plane of Buenos Ayres, of Santiago, of Lima, of Mexico, of Rio Janeiro. All that our continental railways have done for this country we may confidently expect the inter-continental railway to do for the three Americas.

"The best of Spanish-American traditions and civilization, the best of North American, of Anglo-Saxon spirit and tradition, and civilization will be carried along these shining rails. Widely separated peoples will be brought into closer contact, good feeling and good fellowship will be engendered, and unity of purpose, of aspiration and ideals will follow.

"I ask you to view this project in its broad humanitarian aspect and to give it your careful consideration and cordial support, because it is something substantial, something practical and because if it be carried through it will straightway bring peace to many turbulent, uneasy and distressed communities."

Letter to Mr. H. H. MacLoom, Janesville, Wis.

Dear Sir: If you could get the exclusive sale of a coal that would give double heat and cost no more, you'd jump at it, wouldn't you?

You'd control the trade for a hundred miles!

Devoe is like that among paints; a short ton is as good as a long one of any paint you can name; a gallon is worth more than two of many a popular paint.

Suppose you have painted your house about once in three years—ever since it was new; you buy the same number of gallons Devoe, have a third of it left, and it wears six years. Count your costs.

\$1.75 a gallon for paint, \$3.50 a gallon for putting it on; you saved 5 gallons; \$25.50 for this job. But you save the whole job of three years hence; about \$75. Put 'em together; \$100.

Can't reckon so accurately as that; but you see how it goes. Paint isn't alike any more than coal. How much more is coal worth than one-fourth state?

Yours truly,
F. W. DEVOE & CO.,

BIG MEN INVOLVED IN GIGANTIC FRAUD

CONSPIRACY TO DEFAUD COUNTRY OF MILLIONS.

GRAND JURIES TO ACT

Details of Wrongdoing Will Be Laid Before Judicial Bodies in a Few Days, It Is Said—Evidence Ready.

Washington, May 24.—Amazing revelations of a conspiracy to defraud the United States of millions of dollars' worth of mineral and timber lands will be laid before the grand juries of half a dozen states within a few days.

The frauds, it is alleged, will involve in criminal charges the names of men high in business and political circles. They include:

One United States senator.
One former United States senator.
A man reputed to be one of the wealthiest men in the world.

A railroad man known from the Atlantic to the Pacific.

Two of the wealthiest lumber barons in the United States.

Numerous smaller fry, including railroad officials, coal operators and men at the head of fuel companies.

Many indictments looked for.

These men, whose names for obvious reasons, cannot be made public before the grand jury acts, it is declared here, will surely be indicted by the evidence which is now in the hands of United States district attorneys in half a dozen western cities.

These frauds, it was declared in an official quarter, extend into a number of states, including California, Colorado, Washington, Oregon, Idaho, Montana, Minnesota and the Dakotas.

Much of the evidence in these frauds was obtained by Detective Burns, who is engaged in the municipal graft prosecution in San Francisco, and by Francis J. Heney, who is prosecuting the same San Francisco grafters. Upon the conclusion of their work in San Francisco, Attorney Heney and Detective Burns are expected to return to the government service for the prosecution of the timber and mineral land thieves. Some of the grafters in San Francisco also are said to be implicated in the frauds.

Startling Evidence of Fraud.

The frauds have been under investigation by the secret agents of the interior department for more than three years. These secret agents have unearthed startling evidence showing that the public domain has literally been looted by corporations who have been protected and aided in their operations by United States senators and federal officials.

Most of the lands acquired by the so-called conspirators were timber tracts in the west, of which hundreds of thousands of acres have been taken from the public domain.

Gift to Iowa University.

Mount Pleasant, Ia., May 24.—The home of the late James Harlan, once United States senator, has been presented to Iowa Wesleyan university at Mount Pleasant by Mrs. Robert Lincoln, of Chicago, daughter of Senator Harlan. This gift was announced by the president of the school, who will have the house for his residence while head of the school, according to the stipulation of Mrs. Lincoln.

Harlan was long a trustee of the college. Mrs. Lincoln's gift includes a portion of her father's library.

"A FACT"

You can sit down in the dental chair of Dr. Richards without feeling like going into spasms because of fear of pain.

He makes it his business to avoid hurting you.

It's a common thing to hear a patient say upon getting out of his chair, "Doctor, I won't be so much afraid next time."

"You didn't hurt me a bit."

Another common occurrence in his office is to hear people come in and say,

"Dr. Richards, your work for me has proven so satisfactory that I have recommended so and so to come to you for their work."

If you have Dr. Richards do, your dental work you will be sure of at least two things:

It will be good work.

MACHINE AND BOILER WORKS LOCATED HERE

F. O. AMBROSE OF JEFFERSON RENTS BUILDING FOR SHOPS.

EMPLOYS 25 SKILLED HANDS

Factory to be at 121 East Milwaukee Street and Owner of Building, John H. Myers, Will Expend \$2,500 for Remodeling.

Another good manufacturing concern was today secured for Janesville. It is the machine and boiler works of F. O. Ambrose, now of Jefferson, Wis., and employs twenty-five skilled workmen, all drawing good pay. Mr. Ambrose leased John H. Myers' building at 121 East Milwaukee street and this will be converted into office and shops. The rent contract goes into effect June 15 and is for a term of five years. The remodeling of the building will cost in the neighborhood of \$2,500.

Came of Own Volition.
Mr. Ambrose has desired to move to Janesville for some time. During the last few months he has looked over several pieces of property here but could not come to terms with the owners. Mr. Myers finally interested Mr. Ambrose in the East Milwaukee street building and the latter, accompanied by his wife, came to the city today and signed the lease. The building is the brick structure just west of the Galbraith stable.

Ambrose Willing to Buy.
According to contract Mr. Myers will install a glass store front, partition off an office and make general repairs in the building. Mr. Ambrose also rented the frame structure adjoining on the rear. A sixteen or eighteen-foot foundation and wall of concrete blocks will be placed under this and the frame walls cut down and the roof remodeled. Mr. Ambrose agrees to pay ten per cent of the cost of all improvements as rental in addition to the fixed rent. He offered to buy the property but was refused. He stated however that he would purchase any time in the future should Mr. Myers be willing to sell.

Does Extensive Business.
Mr. Ambrose is a manufacturer of and dealer in engines, boilers, smokestacks, iron tanks, etc., and job pipes, valves, injectors, lubricators, belting, packing, pulleys, pumps, grates, castings, hose and similar materials. He does an extensive business throughout southern Wisconsin and northern Illinois and is well known in Janesville. To move his machinery and present stock from Jefferson to Janesville five large freight cars will be needed.

Many More Families.
Besides bringing Mr. and Mrs. Ambrose and their son and his wife, the twenty-five employees, most of whom have families, will be compelled to move here. This means an addition to the city and creates a need for more new houses.

We are glad to inform the ladies of Janesville that Madam Forsyth will be at our store again Saturday, May 25, to take orders for B. F. Patterns. B. F. Patterns are becoming very popular, both for skirts, shirt-waists and tailored suits, they are easily understood and guaranteed to fit. If you are in need of a pattern this certainly is a chance to secure the best.

Very respectfully,
J. M. BOSTWICK & SONS.

THIRD FIRE ALARM WITHIN FORTNIGHT

Called Department to the New Doty Works Last Evening—Trouble This Time Near Blast-Furnace.

Within the past fortnight the fire department has been called to the New Doty Works three times and these repeated and somewhat mysterious outbreaks of the flames are beginning to cause uneasiness in some quarters. There are things that "just happen" in this world; and then again there are other things that transpire according to a perfectly evident design. The alarm last evening was sounded from box 21 at 8:20 o'clock and though the "fire out" signal was soon given, men were at work for over an hour shoveling away tons of coke from the seat of trouble in the vicinity of the blast-furnace. Chemicals were used and no water was thrown. Little, if any, damage was done.

Clean Up Sale of This Season's Spring Merchandise

The backward spring season is the reason for the exceptionally low prices quoted in this ad. This store is always interesting to everybody. No matter what his or her tastes may be. Just now it is specially advisable to keep in close touch with it. On the one hand a constant procession of seasonable merchandise at reduced prices, which no purse of economical habit can ignore; on the other the unceasing incoming of new things for summer wear, which, even if not needed at once, are of great assistance in forming and deciding just what you will want later on. We cannot carry any spring garments any longer in stock, though many of these wearables will be equally serviceable next year and will be as much in style the coming spring. Be first to purchase in order to get best selections. At these great cut prices we do not expect to have many on hand, by next Saturday night. **SALE BEGINS SATURDAY MORNING AND CONTINUES ALL NEXT WEEK.**

..Forty Years Ago..

Janesville Daily Gazette, Friday, May 24, 1867.—May Wine.—We do not know what ingredients enter the composition the Germans call "May Wine." A fragrant herb which grows in the month of May, has a place in it, and it is said imparts a delicious taste to it. Fritz is a skillful hand at compounding it, but as it only lasts a few days those who desire to try it need to do so soon.

Great Exhibition of Horses.—On Tuesday, Wednesday, and Thursday, July 2d, 3d, and 4th, there is to be a great exhibition of horses at the grounds of the Janesville Driving Park Association in this city. Some of the best horses in the west are expected to be present. The races are numerous and the premiums large.

Those who have fast animals should put them in training for this occasion.

Strawberries and Cream.—Saturday being the day upon which Mr. J. B. Wilbur of the Sherman house is expected to return, Prof. Don de Groat who is in charge of the Sherman and who has been in the employ of Mr. Billis for two years and Mr. Murdock for three years, and who prides himself on having made a batch of cream at the island of Cuba once upon a time for the Queen of Spain, is getting ready to celebrate the event by providing the public with strawberries and cream. Such enterprise should be rewarded by the public by a due discussion of the luxuries.

There is an open air spirit about the breezy western operatic comedy success, "The Tenderfoot," which makes it especially interesting to those who know the life it portrays. It is really a clever burlesque of life on the frontier, and the characters are typical, there being introduced the popular gambler, Mexicans and

senoritas, Texas rangers and vaqueros, cow girls and Indians, and the inevitable Tenderfoot. Oscar L. Pigman, the co-star of this production, with Ruth White, which is under the direction of W. H. Cullen, who made a big revival of "The Burgomaster" two years ago, will be here with "The Tenderfoot" Saturday, May 25, matinee and evening.

MILTON SHUT OUT EDGERTON PLAYERS

High-School Nine of College Village Atoned for Past Defeats with Errorless Game.

Milton, May 24.—The Milton high school team, which has been defeated by the Janesville team in two games, today won a victory over the Janesville team in a game played at the home grounds. The home team put up a practically errorless game and got six juicy scores, the latter due largely to errors on the part of the visitors, the second baseman being the rank offender in that line. He was certainly the worst seen here this or any other season. The Edgerton outfit brought along a large contingent of feminine rooters, who attempted to rattle the home players by bunching themselves on the side line near first base and giving an exhibition of collegiate dementia, but it utterly failed in effect. The Milton boys gave the finest exhibition of steady, heady playing seen this season and had Edgerton in the come from the start. Leftfielder Clarke made a hair-raising fly catch, that cut off two runs. Shortstop Spafford nailed the hot liners in grand style and the battery boys and the rest of the nine let nothing get

away from them. Edgerton averaged five pounds to the man heavier, but beef could not win this time. Batteries—Miller and Whitte, Ellingson and Plagg.

High School Graduation

The fifth annual commencement of the Milton high school takes place Wednesday evening, May 29, at the S. D. B. church at 8 o'clock. The following are the graduates: Ernestine L. Bingham, Mary G. Brown, L. Adene Burdick, Kittie M. Cole, E. Blanche Rice, Lawrence M. Plumb, Mildred C. McClafferty. Teachers for 1907-08

The following corps of teachers have been secured for the next school year: Principal, J. F. Whitford; first assistant, Miss C. E. Clement; second assistant, Miss G. M. Brown; seventh and eighth grades, Miss M. Rye; fifth and sixth grades, Miss A. C. Clarke; second, third and fourth grades, Miss A. Millar; first grade and kindergarten, Miss Willey.

Memorial Day Exercises

Memorial day services will be held in the park, weather permitting, at 2:30 p. m. Congressman Cooper will deliver the address and it will be followed by a large hearing. Music will be furnished by the college male quartet and Firemen's band. At the close of the exercises all will march in procession to the cemetery, where will be held appropriate decorations. The Milton Memorial day will be closed on Memorial day from 11 a. m. to 4 p. m. There will be no delivery of mail on rural routes that day.

Da Lu lodge conferred degrees Monday night on a brother from Milton Junction at the request of the lodge of that place.

Rev. Dr. W. J. Long gave out copy of letter which he said he had written to President Roosevelt regarding "nature knowledge."

President's Itinerary Laid Out.

Washington, May 24.—The president, it is said at the White House, will not make more than one stop in any one place on his way down the Mississippi river after he leaves Canton on the thirtieth of September. Unless present plans are changed, only three stops are to be made in all; St. Louis, Mo.; Cairo, Ill.; and Memphis, Tenn. He will embark at some point in Iowa. The trip is to be made with the inland waterways commission and the members of the Lakes to the Gulf Deep Waterways association. From Memphis he is to come direct to Washington without stopping anywhere en route.

Die in Ammonia Explosion.

Chicago, May 24.—For the second time in four months an explosion of ammonia in the plant of Armour & Co. in the stockyards Thursday afternoon cost the lives of employees of that company. Four men were killed, 14 were injured, and two still are missing and may be dead.

The recovery of some of the injured is doubted, the list of dead in the previous explosions having increased daily after the accident by the deaths of men who had survived the first shock, but who succumbed to pneumonia following injury to their lungs.

France Will Not Increase Duties.

Paris, May 24.—The French government has succeeded in sidetracking the bill which had been pending before parliament to increase the duties on American oil seeds. The action of the cabinet in this instance constitutes fresh proof of the desire of the government to avoid tariff complications with the United States pending an attempt to arrange an agreement through a joint commission.

End of Royal Arcanum Session.

Boston, May 24.—The installation of the new officers brought to a close the thirtieth annual session of the supreme council of the Royal Arcanum. The last action of the council was to rescind the change in the laws adopted Wednesday, admitting new members with a death benefit of \$1,500.

A Plant Prophet.

There has been found recently in Cuba a strange plant which has extraordinary powers in forecasting not only atmospheric, but seismic disturbances. When these are to occur twigs and leaves perform peculiar movements, each having its definite significance. By observing them, weather forecasts can be made from two to seven days ahead; and earthquake forecasts as much as 26 days in advance over an area of 300 square miles. Volcanic eruption and accumulations of fire damp in mines can also be predicted.

GENERAL PLAN OF NEW N-W YARDS AND DETAILED DRAWING OF THE BUILDINGS

No long, detailed word description or series of articles could tell more concerning the Chicago & Northwestern Railway company's gigantic freight yards to be built in South

continuous lines are to be constructed this year. The dotted lines denote projected tracks. These were drawn on the original plan for a thirty-two hundred car yard and may not be laid

12x24, and a coal and oil house, 10x14. The following data and notes on the different tracks will be found interesting:

Janesville than do the accompanying drawings. One shows a general plan of the yards and the location. The other gives a more detailed picture of the engine house, shop buildings, and surroundings.

Much Land Not Used.
In the general plan the company's property is outlined. Being of triangular shape it is bounded on the southwest by the main line and on the north and east by a heavy border line. Thus it is seen that much of the land will not be used for tracks or buildings.

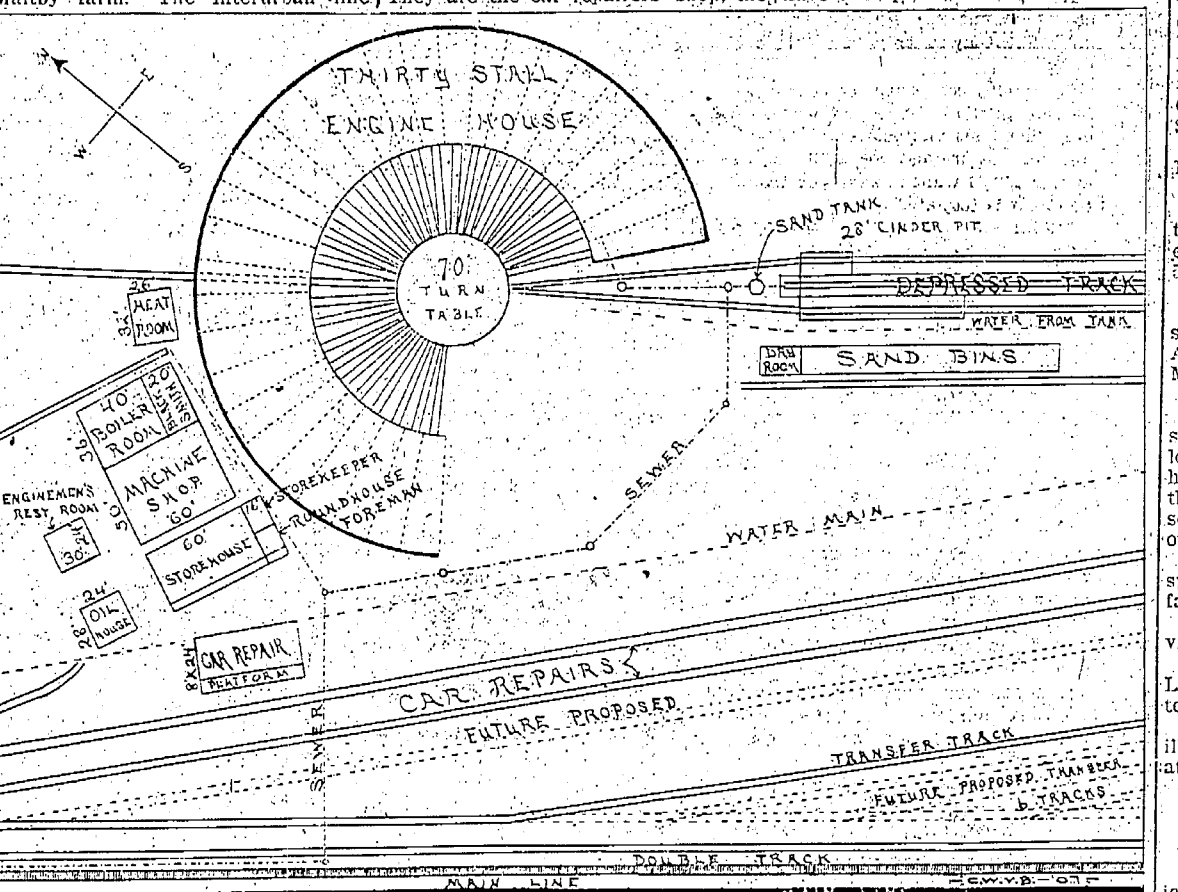

Former Owners' Names.
The tract comprises about three hundred eight acres. A little more than half of Anna B. Hughes' farm was purchased, all of J. J. Lyke's, all of John Stanton's, a small triangular portion of F. C. Huginin's, a similar part of John Read's, and a small parcel of the Ottman estate now the Malby farm. The interurban line

for two or three years. Twenty miles of track. Twenty miles of track, in addition to the five miles of double track, will be laid this summer. This includes sidetracks, holding eight hundred cars; transfer tracks, car repair track; caboose track, roundhouse track, etc. The trackage further projected is twenty miles in length and would accommodate in the neighborhood of twenty-four hundred cars.

Buildings by Contract.
All brick buildings are to be erected by contract. They are the thirty-stall engine house, which is three hundred forty feet in diameter; the structure which contains the shops, boiler room, storehouse and offices; and the oil house. L. J. Putnam, who is in charge of the construction work here, is now receiving bids for this contract.

Several Frame Buildings.
The various frame structures will be built by the company's workmen. They are the car repairers' shop, the

MANY FROM CITY AT EDGERTON WEDDING

Miss Lewise Pomeroy and Lawrence W. Hutson Wedded—General News of the Tobacco City.

[SPECIAL TO THE GAZETTE.]
Edgerton, Wis., May 23.—At the home of Mr. and Mrs. W. T. Pomeroy, nearly one hundred invited guests witnessed the marriage of Mary Lewise Pomeroy to Lawrence W. Hutson, which took place at high noon. The house was beautifully decorated in white flowers and smilax and ferns. Miss Edna Pomeroy, a sister of the bride, played the Mendelssohn wedding march as the bridal party took their places before a bank of green and beneath a huge white bell. Mr. Maurice Rowell of Beloit was Mr. Hutson's best man who wore the conventional black. The bride was attended by her cousin, Miss Elsie Smith, of Janesville, who wore a flowered silk tissue gown and carried pink roses. The bride was beautifully gowned in white silk tulle and carried white roses. Rev. L. A. Parr read the marriage ceremony. Following the congratulations a beautiful four-course luncheon was served under the direction of Mrs. Bowerman of Janesville by the Misses Bessie Flagg, Marguerite Skibbe, Evaline Pearson, Jessie Cox, Tillie Larson, Olga Hanson, Charlotte Skinner, Bessie Wildermuth. After a brief wedding journey the young people will be at home in the cottage adjoining the Pomeroy home on Collins street. The many and beautiful wedding gifts attest the high esteem in which the couple were held. Among those present from out of town were: Mr. and Mrs. F. A. Talmadge and daughter Renette of Fort Atkinson; Mr. J. S. Miller of Delevan; Mr. and Mrs. C. D. Rosa and children; Mr. Maurice Rowell of Beloit; Mr. and Mrs. M. Pelton; Miss Jessie M. Pelton of Madison; Mr. and Mrs. Hiram Smith and daughter; Mr. and Mrs. E. E. Warner; Miss Ida Doty; Mr. and Mrs. F. P. Grove and Mrs. Orrin Pomeroy of Janesville, and Mrs. H. R. Pomeroy, Gay's Mills, Wis.

THISTLES AND DANDRUFF.

An Increasing Parallel and a Valuable Deduction Therefrom.

Cutting down thistles no more relieves the land of thistles than does scouring the scalp cure dandruff. In each case permanent relief can only come from eradicating permanently the cause. A germ that plows up the scalp searching for the hair root where it itaps the vitality, causes dandruff, falling hair, and baldness. If you kill that germ, you'll have no dandruff but a luxuriant suit of hair.

Newbro's Herpicide is the only hair preparation in the world that cures dandruff and falling hair by killing the germ. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

THE CATS ATE ALL THE DAINTY BASS

Fire Marshal Klein Did Not Enjoy His Sunday Night Supper as He Expected.

Last Sunday City Fire Marshal Klein went fishing. He caught two lovely bass. Great big luscious fellows, that were just fit for an epicure's palate. All afternoon Mr. Klein dined to his fellow workers the joy he would have when he ate them for supper. The fish were cleaned, properly prepared and cooked by the Chief's wife. The chief waited with eagerness for the repast. When all was ready she placed the fish on the table and went to call him. Then, horror of horrors, two large Angora cats, pets of Dr. Pember, who are visiting at the Klein homestead during the absence of the Doctor in the east, appropriated the fish and when the Marshal came to the dining-room—There is nothing more to be said.

Disappointed.

"I don't like this party line telephone half as well as I thought I was going to," said Mrs. Snewper. "Every time I hear it ring, and take down the receiver to listen to what's going on, I hear somebody say: 'Get off the line, there, you! Quit bugging in!' I declare, it's only an aggravation!"

SHORT TALKS BY L. T. COOPER.

MEDICINE.

It's curious what some people believe a medicine will do. They seem to think because I advertise my preparations I claim they will cure anything and everything. Well, I don't.

The other day I got a letter from a woman who said her husband had been in bed eighteen years; with paralysis. She had bought seven bottles of the Cooper medicines and her husband was still in bed. "She stated that I was a scoundrel, a robber and various other pleasant things."

Now the only thing I claim for Cooper's New Discovery is that it will put the stomach in working order. I know that if this is done, rheumatism, constipation, kidney and liver troubles, nervousness, and the general tired-out, despondent feeling will disappear in ninety-nine cases out of a hundred.

I know this medicine to be a fine tonic which used twice a year will throw off impurities and add flesh, strength and tone to the entire system. But it will not do the impossible. No medicine on earth will do more than help nature. Certain diseases are beyond all medicine, although God in his wisdom may some day give us frail humans, a knowledge of how to cure them.

At present I know Cooper's New Discovery to be as thoroughly efficient a medicine as was ever on the market, and people who will take it for the common ills to which flesh is heir will be more than satisfied.

BOLT OF LIGHTNING KILLED BULL AT UTTERS CORNERS

Struck Barn but Did Not Cause Fire and Only Shocked Horses and Cows.

Utters Corners, May 23.—A electric storm passed over here early Wednesday morning and during the storm lightning struck the large barn on Mrs. James Pollard's farm and killed a valuable bull. The horses that were in the barn were knocked down by the shock but none were killed. Fortunately none of her fine dairy cows were in the barn and the barn did not get burned.

Mr. and Mrs. Roy Farnsworth went to Whitewater Saturday, called there by the serious illness of her father, E. B. Warner. They remained by his bedside until his death, which occurred Monday at ten o'clock. The funeral was held at the home Wednesday at two o'clock, conducted by Rev. E. C. Barnard, and the remains were laid to rest in Hillside cemetery.

Mr. Warner was born in New York in 1850 and emigrated to Wisconsin in 1851. In 1852 he married Miss Lavina Thwing and located on a farm here. About ten years ago they leased their farm and moved to Whitewater, where they have since lived. He leaves to mourn his loss his aged wife, one son, Prof. D. T. STRONG STAND BY ASSEMBLY

PRESBYTERIANS FIRM AS TO MARRIAGE AND DIVORCE.

Standards of the Church Are to Be Rigorously Upheld—Temperance Controversy May Be Renewed.

Columbus, O., May 24.—The Presbyterian general assembly Thursday received and adopted the report of the special committee on marriage and divorce and adopted resolutions rejoining in favorable results already obtained and expressing the hope of more radical reform, reaffirming declarations of former assemblies regarding marriage and divorce and enjoining Presbyteries "to enforce the standards of the church, to hold to a strict account all ministers under their care, and to urge all ministers to regard the comity that should refrain from giving the sanction of our church to members of another church whose marriage is in violation of the laws of the church whose communion they have chosen."

Rev. Dr. Charles A. Dickey, of Philadelphia, chairman of the committee who presented the report, referring to the recent marriage of President Corey of the United States Steel corporation, said: "What we said about Mr. Corey cleared the way. The condemnation of public opinion was nothing in itself to make us rejoice, and surely if the editorials of our newspapers, and if the approval of public opinion is rising to a high standard, it is time for us that we take the lead in this as in everything and give an example of the church cleansing itself from lax divorces and sinful marriages."

The report of the board of church erection was also received and adopted. Although it was rumored that an attempt would be made to bring about a reconsideration of the action of the assembly on the temperance question, especially with reference to the resolution commending the American Anti-Saloon league as a "safe, sane and effective organization," no step was taken in this direction. It is not improbable, however, that the controversy may be renewed when the report of the permanent committee on temperance is presented.

Rev. Maitland Alexander of Pittsburg presented the report of the committee on theological seminaries. Dr. Alexander urged the necessity of maintaining a high standard on educating men for the ministry. Resolutions were adopted urging strict enforcement of the rule regarding the necessity of a college diploma as a condition of admission to the seminaries, that an entrance requirement in the English Bible shall be demanded of all students and urging Presbyteries to protect the church seminaries from unworthy candidates for the ministry.

A Cigar Wrapper Often Covers a Multitude of Sins

You know quite well that there are many cigars sold for five cents that are very poor quality. They are sold on appearance. A fine appearing wrapper, a handsome gold band or a pretty box-lid may cover a multitude of sins, but it is the filler, the inside of a cigar, that determines its smoking quality.

Modern manufacture exemplified in the American Cigar Company's products has grown way above this unfortunate method of doing business and assures a cigar that is honest all through.

The "Triangle A" merit mark on a box of cigars means that every sprig of leaf in every cigar in the box was graded especially by experts for that one brand, two years before it was made; that during this time the leaf has mellowed in great, clean warehouses in a perfect temperature till all its finest qualities are brought to a point of perfection.

These are some of the reasons why "Triangle A" cigars smoke with the fine mellow flavor that you thought was only to be found in expensive brands; why every "Triangle A" cigar has an even flavor and aroma from end to end; why every cigar of each "Triangle A" brand smokes just the same.

"Triangle A" cigars cost you no more than the "mixed" cigars—though they are worth twice as much.

Look for the "A" (Triangle A) when you buy cigars.

"Triangle A" brands offer the widest obtainable range of choice, and absolutely dependable quality in whatever brand suits your taste. You'll never find a better brand to make the test with than

The New CREMO

Every box is now extra-wrapped in glassine paper, sealed, at each end with the "Triangle A" in red. The cigars are kept clean, fresh and in perfect smoking condition until the box is opened.

ROBERT SHAW OLIVER
Assistant Secretary of War Robert Shaw Oliver was appointed to this post in July, 1902. Mr. Oliver, after being educated in the public schools of New York became a volunteer in the Civil war and made so good a record that he was offered and accepted a position in the regular army after the war ended. He resigned to go into commercial life but his military instincts made him take a strong part in the management of the national guard of New York. He was police commissioner of the city of Albany, N. Y., until called to the war department in 1903. Mr. Oliver is a very successful businessman and has large iron interests in Albany, N. Y., where he has his home, although he spends most of his time in Washington.

Science at School.
The education of our young in science at school is another hope of the future of our race, for the seed is more readily sown, and has a better chance of bringing forth much goodly intellectual fruit when it falls on the fertile mental field of youth than when it finds before it an older soil, already much occupied with worldly affairs.—London News.

Foiled the Wise Men.
Leibnitz, one of the great men of literature, who died in 1716, wished to join a society of alchemists who were prosecuting a search for the philosopher's stone. He compiled a letter from the writings of the most celebrated alchemists and sent it to the society. The letter consisted of the most obscure terms he could find and he himself, he said, did not understand a word of it. Afraid to be thought ignorant the society invited him to its meetings and made him secretary.
